Basavakalyan, Karnataka, India | +916360344476  
madhusudansomvanshi55@gmail.com | www.linkedin.com/in/madhusudan-somvanshi

## PROFESSIONAL SUMMARY

Python Developer skilled in Flask, Django, and REST APIs with hands-on experience in deploying scalable web applications and automating workflows. Developed 5+ backend systems integrating MySQL and AWS, improving data handling efficiency by 30%.

## EDUCATION

Visvesvaraya Technological University, Belgavi

May 2025

### Bachelor of Engineering In Computer Science & Engineering

**Related Coursework:** Object-Oriented Programming with Python, Web Technologies and RESTful API Design, Database Management Systems

**CGPA:** 8.03

## RELEVANT EXPERIENCE

Deloitte | Virtual Internship

April 2025

### Associate Data Analyst Intern

- Led weekly training sessions for 10+ team members, improving analytics efficiency by 25%.
- Automated reporting workflows, cutting turnaround time by 20%.
- Audited 25+ databases, increasing data integrity and reliability by 18%.
- Built 3 custom analytical models, driving 12% improvement in performance metrics.

Rooman Technologies | Bengaluru

Nov 2024 – Mar 2025

### Cloud Application Developer Intern

- Developed AWS Lambda & S3 workflows achieving 99.9% data reliability and 40% faster recovery.
- Implemented CI/CD pipelines using Git & Jenkins, boosting deployment speed by 50%.
- Built RESTful APIs and backend integrations, improving response time by 30%.
- Developed a cost-efficient cloud data protection system for SMEs using AWS and Python automation tools.

## EXTRACURRICULAR ACTIVITIES

- Student Ambassador – Led internship initiatives and academic collaboration programs.
- Anchor – Hosted the annual Techno-Cultural Fest.
- Group Leader – Conducted AI awareness sessions for local schools (Grades 7–10).

## LANGUAGES, SKILLS AND CERTIFICATIONS

- Languages:** English (native or advanced proficiency), Kannada, Marathi, Hindi (Advanced to Proficiency).
- Skills:** Python, Django, Flask, FastAPI, TensorFlow, Scikit-learn, Pandas, NumPy, MySQL, AWS (Lambda, S3), REST APIs, Git, Linux, Docker, Tableau, Data Structures & Algorithms, Object-Oriented Programming, CI/CD, PostgreSQL, API Testing, JSON, GitHub Actions, Unit Testing, Agile, Software Development Life Cycle (SDLC)
- Certifications:** Python & Machine Learning – ISRO | Foundations of AI – Microsoft Data Analytics (Python & FastAPI) – Deloitte
