PROFESSIONAL SUMMARY

Python Developer skilled in Flask, Django, and REST APIs with hands-on experience in deploying scalable web applications and automating workflows. Developed 5+ backend systems integrating MySQL and AWS, improving data handling efficiency by 30%.

EDUCATION

Bachelor of Engineering | Computer Science and Engineering | Visvesvaraya Technological University | May 2025
Basavakalyan, India | 8.03 CGPA

- Modules:** Object-Oriented Programming with Python, Web Technologies and RESTful API Design, Database Management Systems
- Dissertation:** Design and Implementation of a Scalable Web Application using Flask and MySQL
- Relevant Coursework:** OOP with Python, Web Technologies, REST APIs, Database Management, Cloud Computing.

WORK EXPERIENCE

Associate Data Analyst | Deloitte | Virtual Internship | Apr 2025

- Led weekly training sessions for 10+ team members, improving analytics efficiency by **25%**.
- Automated reporting workflows, cutting turnaround time by **20%**.
- Audited 25+ databases, increasing data integrity and reliability by **18%**.
- Built 3 custom analytical models, driving **12%** improvement in performance metrics.

Cloud Application Developer Intern | Rooman Technologies | Bengaluru | Nov 2024 – Mar 2025

- Developed AWS Lambda & S3 workflows achieving **99.9% data reliability** and **40% faster recovery**.
- Implemented CI/CD pipelines using Git & Jenkins, boosting deployment speed by **50%**.
- Built RESTful APIs and backend integrations, improving response time by **30%**.
- Developed a cost-efficient cloud data protection system for SMEs using AWS and Python automation tools.

EXTRACURRICULAR ACTIVITIES

Student Ambassador – Led internship initiatives and academic collaboration programs.

Anchor – Hosted the annual Techno-Cultural Fest.

Group Leader – Conducted AI awareness sessions for local schools (Grades 7–10).

PROJECTS

1. Data Backup and Recovery using AWS Lambda, S3, API Gateway, Python (Boto3)

- Designed automated cloud backup workflows ensuring 99.9% data reliability and 40% faster recovery.
- Deployed 3 REST APIs for seamless, on-demand data backup and restoration.

2. Home Security Monitoring System Python, Raspberry Pi, OpenCV, Flask

- Developed real-time motion detection system with 92% alert precision and 15% fewer false alarms.
- Enabled 24×7 live video streaming and instant alerts via Flask dashboard.

LANGUAGES, SKILLS AND CERTIFICATIONS

- Languages:** English (native or advanced proficiency), Kannada, Marathi, Hindi (Advanced to Proficiency).
- Skills:** Python, Django, Flask, FastAPI, TensorFlow, Scikit-learn, Pandas, NumPy, MySQL, AWS (Lambda, S3), REST APIs, Git, Linux, Docker, Tableau, Data Structures & Algorithms, Object-Oriented Programming, CI/CD, PostgreSQL, API Testing, JSON, GitHub Actions, Unit Testing, Agile, Software Development Life Cycle (SDLC)
- Certifications:** Python & Machine Learning - ISRO | Foundations of AI - Microsoft Data Analytics (Python & FastAPI) – Deloitte
